Jollibee Foods Corporation, the country's largest food service company, posted a 10.0% growth in revenues while system wide sales, a measure of all sales to consumers, both from company-owned and franchised stores grew by 9.5% in the first quarter of 2015 compared to the same quarter of 2014. JFC's Net Income Attributable to Equity Holders of the Parent Company rose by 10.2% in the first quarter versus the same period last year.

In the first quarter of 2015, system wide sales of the Philippine business grew by 9.9% driven by a 5.3% growth in store network and about 5% growth in same store sales. Sales from foreign businesses grew by 8.1%, with China growing by 7.7%, the United States by 11.7% and Southeast Asia and the Middle East by 5.0%. These growth rates are net of the effect of the appreciation of the Philippine peso versus other currencies. Excluding the impact of exchange rate changes, sales from its restaurants abroad grew by 11.1%.

Jollibee Foods Corporation's Chief Financial Officer Mr. Ysmael V. Baysa gave the following statement: "Overall business in the Philippines remained strong, growing by almost 10% in system wide sales in the first quarter despite a high base from last year. The brands continued to bear the pressure of higher raw material prices with their impact on operating margins. We look forward to improving raw material price trends and higher growth rate of our store network in the months ahead. Foreign businesses continued to grow well with strong same store sales growth and improving profitability in China and very robust business growth in Vietnam and in some parts of the Middle East."
