In addition, the Company instituted a performance-based incentive for its directors. The incentive shall be determined by the Compensation Committee.

Senior Management Stock Option and Incentive Plan

On December 17, 2002, the SEC approved the exemption requested by the Jollibee Group on the registration requirements of the 101,500,000 options underlying the Parent Company’s common shares to be issued pursuant to the Jollibee Group’s Senior Management Stock Option and Incentive Plan (the “Plan”). The Plan covers selected key members of management of the Jollibee Group, certain subsidiaries and designated affiliated entities.

The Plan is divided into two programs, namely, the Management Stock Option Program (MSOP) and the Executive Long-term Incentive Program (ELTIP). The MSOP provides a yearly stock option grant program based on company and individual performance while the ELTIP provides stock ownership as an incentive to reinforce entrepreneurial and long-term ownership behavior of executive participants.

MSOP. The MSOP is a yearly stock option grant program open to members of the corporate management committee of the Jollibee Group and members of the management committee, key talents and designated consultants of some of the business units.

Each MSOP cycle refers to the period commencing on the MSOP grant date and ending on the last day of the MSOP exercise period. Vesting is conditional on the employment of the employee-participants to the Jollibee Group within the vesting period. The options will vest at the rate of one-third of the total options granted on each anniversary of the MSOP grant date until the third anniversary.

The exercise price of the stock options is determined by the Jollibee Group with reference to prevailing market prices over the three months immediately preceding the date of grant for the 1st up to the 7th MSOP cycle. Starting with the 8th MSOP cycle, the exercise price of the option is determined by the Jollibee Group with reference to the market closing price as at date of grant.

The stock options expire eight years after grant date. The Jollibee Group does not pay cash as a form of settlement.

On July 1, 2004, the Compensation Committee of the Jollibee Group granted 2,385,000 options under the 1st MSOP cycle to eligible participants. The options will vest at the rate of one-third of the total options granted from the start of the grant date on each anniversary date which will start after a year from the MSOP grant date. One-third of the options granted, or 795,000 options, vested and may be exercised starting July 1, 2005 and expired on June 30, 2012. On July 1, 2005 to 2014, the Compensation Committee granted series of MSOP grants under the 2nd to 11th MSOP cycle to eligible participants. The options vest similar to the 1st MSOP cycle. The second and third MSOP cycles expired on June 30, 2013 and 2014, respectively.

The expected life of the stock options is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may also not necessarily be the actual outcome.

ELTIP. The ELTIP entitlement is given to members of the corporate management committee.

Each ELTIP cycle refers to the period commencing on the ELTIP entitlement date and ending on the last day of the ELTIP exercise period. Actual grant and vesting is conditional upon achievement of the Jollibee Group’s minimum, medium to long-term goals and individual targets in a given period, and the employment of the employee-participants to the Jollibee Group within the vesting period. If the goals are achieved, the options will be granted. Starting with the 3rd ELTIP cycle, a percentage of the options to be granted are based on the percentage of growth in annual earnings per share such that 100%, 50% or 25% of the options granted when percentage of growth in annual earnings per share are 12% and above, 10% to less than 12% or 8% to less than 10%, respectively.

The exercise price of the stock options is determined by the Jollibee Group with reference to prevailing market prices over the three months immediately preceding the date of entitlement.

The Jollibee Group does not pay cash as a form of settlement. Starting with the 3rd ELTIP cycle, the exercise price of the option is determined by the Jollibee Group with reference to the closing market price as of the date of grant.

On July 1, 2004, the Compensation Committee gave an entitlement of 22,750,000 options under the 1st ELTIP cycle to eligible participants. The options will vest at the rate of one-third of the total options granted on each anniversary date which will start after a year of the ELTIP grant date. One-third of the options granted, or 7,583,333 options, vested and may be exercised starting July 1, 2007 and expired on June 30, 2012. On July 1, 2008 and October 19, 2012, a total entitlement of 20,399,999 and 24,350,000 options was given to eligible participants under the 2nd and 3rd ELTIP cycle, respectively.

The weighted average remaining contractual life for the stock options outstanding as of 2014, 2013 and 2012 is 4.85 years, 5.30 years and 5.68 years, respectively.

The fair value of stock options granted is ₱22.96 in 2014 and 2013. The fair value of share options as at the date of grant is estimated using the Black-Scholes Option Pricing Model, taking into account the terms and conditions upon which the options were granted. The option style used for this plan is the American style because this option plan allows exercise before the maturity date. The stock options granted under the 2nd and 3rd ELTIP cycles will expire on April 30, 2017 and 2020, respectively. The inputs to the model used for the options granted on the dates of grant for each ELTIP cycle is shown below:

The expected life of the stock options is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may also not necessarily be the actual outcome.

The cost of the stock options expense charged to operations under “General and administrative expenses” account amounted to ₱89.3 million and ₱78.7 million for the six months ended June 30, 2015 and 2014, respectively (see Note 22). Correspondingly, a credit was made to additional paid-in-capital.

While under the terms of the Plan, its amendment requires only board approval, the Company shall present the Plan for ratification of its stockholders during the Meeting, in compliance with SRC Rule 12.1, Paragraph 7(B)(v)(d) of the Amended Implementing Rules and Regulations of the Securities Regulation Code, which took effect on December 30, 2003. The Plan took effect on November 25, 2002, i.e., before the requirement of stockholders’ approval took effect. This ratification is among the requirements for the Company’s application for exemption from registration of additional shares for the Plan which it intends to submit to the Securities and Exchange Commission as soon as the requirements are completed.
