Jollibee Foods Corporation (JFC), the largest Asian food service company reported today that its system wide sales, a measure of all sales to consumers both from company-owned and franchised stores grew by 16.5% in the third quarter compared to sales in the same period of 2016. Revenues grew by 17.7% while operating income and net income attributable to shareholders of the parent company grew faster at 27.2% and 21.1%, respectively.

Sales of the Philippine business in the third quarter grew by 13.3% driven by the acceleration of store network expansion and continued strong same store sales growth. Sales of the foreign business grew by 24.4% (excluding divestments and acquisition) with Southeast Asia (ex-Philippines) growing by 39.1%, China 23.4%, North America 22.2% and the Middle East 21.4%. Including divestments and acquisition, sales of the foreign business grew by 28.1%. The strong worldwide sales growth for the quarter was driven by same store sales increase of 6.0%-7.0%, store expansion of 7.5% and 2.0% impact of currency exchange rate changes.

JFC Chief Executive Officer, Mr. Ernesto Tanmantiong gave the following statement: "The organization opened 265 new stores in the first nine months of the year compared with 201 in the same period last year, a 32% improvement. In the Philippines, store expansion grew at 8.2% - the highest organic store growth in at least the past five years while same store sales growth remained strong. Abroad, many of our brands are performing at double digit same store sales growth particularly in China and Vietnam while profit continued to rise significantly. We look forward to continued and long term profitable growth in the Philippines and in our foreign operations. We continue to build our organization capability to achieve this."

Operating income for the third quarter of 2017 grew by 27.2%. JFC Chief Financial Officer, Mr. Ysmael V. Baysa gave the following statement: "All business regions: Philippines, China, United States and Southeast Asia and the Middle East delivered strong profit growth in the 3rd quarter and in the first nine months of 2017 versus the same period last year. In the Philippines, slight price adjustments and slower growth of overheads accelerated profit growth versus previous quarters. Abroad, very strong same store sales growth significantly improved store profit margins and return on investments. We still have so much work to do in cost and profit margin improvement, but our progress supports continued strong investments for growth with expectation of healthy returns in the years ahead."

JFC spent Php6.3 billion in capital expenditures in the first nine months of 2017 representing a 38% increase versus the amount of Php4.6 billion incurred in the same period last year. Its annualized return on assets improved from 9.0% in the first nine months of 2016 to 9.2% in 2017 while its annualized return on equity improved from 18.4% to 18.9% in the same period. Gross profit as a percentage of revenues rose slightly from 17.7% in the third quarter of 2016 to 18.0% in the same period in 2017. General and administrative expenses also improved slightly from 10.3% of revenues to 10.1% of revenues.

Net income attributable to equity holders of the Parent increased by 21.1% in the third quarter. Provision for income tax for the third quarter grew significantly due to the consolidation of the SuperFoods Group and reduction of deferred tax assets recognized for the Parent Company. Net income attributable to equity holders of the Parent increased by 16.3% for the first nine months of 2017 to Php5.1 billion. Basic earnings per share amounted to Php4.731, 15.5% higher than in the same period last year.

The JFC Board of Directors approved today the declaration of a regular cash dividend of Php1.18 per share to be paid on December 11, 2017. This is 18.0% higher than the regular cash dividend paid in the same period last year. This brings the total cash dividend declared in 2017 to Php2.18 per share, representing an increase of 17.2% over 2016 cash dividend.
